

NOTES

- Any proposed alteration to the layout of the cut-out and metering arrangements to be agreed with Jersey Electricity PLC. Before installation.
- See Jersey Electricity PLC, Drawing no. 35-R21 for cupboard construction details.
- Meter cabinet hinges on left hand side.
- The applicant must make provision for coax cable to be run from the service position to the exterior of the building at a location where a discreet GPRS aerial can be mounted should there be insufficient signal strength at the service position.
- The new supply position must be electrically safe and environmentally secure. JE plant and equipment shall only be fixed directly onto a visible 16mm marine ply backboard. The applicant's contractor shall ensure the backboard is adequately fixed to any substrate layers. It being understood that this will not be to the detriment of the enclosure's fire rating in compliance with the relevant building byelaws.
- Tri-rated cable to connect the customer main fused switch to the lucy
